## Childcare fee for pre-school children and schoolchildren/leisure.

The youngest child in the household is deemed to be the first child, with the second youngest being the second child and so on. No fee is charged from the fourth child. This is regardless whether the children of the household are in pre-school or leisure or if you have the children in the same pre-school/school or different ones.

The fee will be charged from the date when the childcare place became available. The fee is charged 12 months of the year, (regardless if the child is temporary absent.)

If the child has been a pre-school child at Sagans Naturförskola and is moving on to school, the fee for the leisure is valid as from the 1<sup>st</sup> of August the year the child enrolls in school.

The fee is calculated in percentage of the total taxable income per month in the household. Household entitled people who are married or living in marriage-like conditions/cohabitee at the same address as the child, regardless if one is a parent to the child or not.

The MAXIMUM fee in 2023 is based on a total income of 56 250 SEK or more/month of the total household.
